

RecyclingKits.com Toner Recycling Program

A simple and sustainable, waste-free solution for responsible disposal.

Businesses today are looking for ways to lower their impact on the environment, to work cleaner, smarter, and more responsibly. Kyocera's RecyclingKits.com Toner Recycling Program offers our customers a way to do just that, taking all the effort out of recycling empty Kyocera toner containers.

How it works

Contact your authorized Kyocera dealer to have a toner recycling box delivered to your door.

Add Kyocera empty & waste toner containers until the box is full.

Seal & send.

That's it! Kyocera sponsors the program at no cost to customers. It's our way of saying thank you for helping us uphold our commitment to working in harmony with our environment.

Where it all goes

It might be easier to say where it doesn't go... to the landfill. That's right. 100% of every recycled Kyocera toner container is transformed into useful objects that serve a necessary function. Our partners at Close the Loop are able to repurpose the materials into items like pens, park benches, and even asphalt!

Commitment to the Environment

We are fully committed to minimizing our impact on the environment, and our history shows it. Kyocera was built on the principles of community and responsibility and has worked hard to stay true to those principles since our founding in 1959. Today, we continue to search for eco-friendly innovations and pursue responsible approaches in every aspect of our company, from our processes to our products.

ECOSYS Technology

Separating the toner from the long-life ceramic drum reduces waste to landfill

Eco-friendly Packaging

Recyclable packaging that minimizes the use of Styrofoam

Energy Saving Toner

With a lower melting point, our toner requires less energy to apply to paper

Innovative Waste Toner System

Empty toner containers become waste toner containers, which are also recyclable

To ensure a sustainable business ecosystem, we all have a part to play in protecting the environment around us.

Contact your authorized Kyocera Dealer today, and let's get started!
